- HTML, CSS, Javascript, Typescript, redux
- ReactJS, Shopify, Angular

English

- TOEIC: 890/990

Soft skills

- Problem-Solving
- Adaptability
- Critical Thinking
- Communication Skills
- Teamwork and Collaboration

Career Objectives

As a Front-end Developer with a strong background in building high-performance web applications, I am eager to leverage my expertise in Next.js, Tailwind CSS, and React to contribute to innovative software solutions. My experience includes developing dynamic content management systems and e-commerce platforms that prioritize user experience and responsiveness. I aim to apply my skills in performance optimization, interactive UX/UI design, and state management through Redux Toolkit, to enhance the digital presence and efficiency of the organization. I am particularly passionate about creating seamless, engaging interfaces that meet user needs and drive business success.

Education

University of Technology and Education

04/10/2020 - 16/04/2025

Software Technology

Graduated with a Bachelor's degree in Information Technology

Work Experience

Front-end Developer At BMBSOFT Viet Nam

14/10/2024 - 15/04/2025

An outsourcing company with a client base primarily focused in North America.

Projects Participated:

- **Build Corp** (<https://buildcorp.com.au/>)
 - Built a project content management platform using Next.js 13 and Tailwind CSS, optimized for performance and responsiveness..
 - Enhanced interactive UX/UI across key construction service areas using Framer Motion, Swiper, and custom React components.
 - Integrated Redux Toolkit and i18n support for consistent multilingual content delivery.
- **Thai Yen Cafe** (<https://thaiyencafe.com/>)
 - Built a coffee e-commerce website that allows customers to browse, customize, and purchase specialty coffee products online.
 - Developed the platform using Next.js, React, and Tailwind CSS, ensuring a fast, responsive, and visually appealing shopping experience.
 - Translated Figma designs into a pixel-perfect UI and implemented SSR/SSG for improved SEO and performance. Integrated Redux Toolkit for state management and used MUI and Swiper for an interactive user interface.
- **BMB ECommerce** (<https://bmb-ecommerce-uat.bmbsoft.com.vn/>)
 - Developed a high-performance e-commerce platform using Next.js 13, Tailwind CSS, and MUI.
 - Integrated Redux Toolkit, next-translate, and optimized UI/UX.

- Built dynamic, responsive components with React Hook Form, Swiper, and React Select.

E-commerce Website (Personal project) 23/3/2024 - 19/12/2024

Building an E-commerce website (e.g., similar to Shopee, Tiki,...)

Managing source code with GitHub

- Link Github: <https://github.com/PhatMap/ShopDee>
- Technologies used:
 - Front-end: React JS
 - Back-end:
 - NodeJS (Express)
 - Database: MongoDB
 - Main features:
 - CRUD for accounts, products, reviews, orders...
 - Support for managing product sales for store owners

Certificates

14/06/2025 Bachelor of Information Technology – HCMUTE

11/10/2023 TOEIC score of 890 points

21/06/2023 Global Software Talent Lite

12/04/2022 Big data machine learning fundamentals
